

PRASIDHA JAGTAP

Technology Analyst | Product Delivery & Digital Transformation | Enterprise & HR Tech Platforms | Mobile App Delivery | AI Enablement

Navi Mumbai, Maharashtra, India | +91 75592 24993 | prasidhajagtap@yahoo.com | linkedin.com/in/prasidhajagtap | prasidhajagtap.github.io/prasidha_jagtap

PROFESSIONAL SUMMARY

Technology Analyst with 6+ years of work experience, including 3+ years delivering enterprise HR technology and digital transformation. Manage an enterprise HR mobile app (iOS and Android) with 100,000+ downloads and ~54,000 active users, covering most hire-to-retire transactions for employees and managers, from requirement analysis and solutioning through documentation, testing, release and production support. Maintained 100% on-time delivery every year since 2023, including the app's launch in six countries and an upgrade to enterprise single sign-on. Combine technology knowledge with AI as a tool to solve bigger problems and increase productivity, alongside solutioning, stakeholder management, security and compliance.

CORE COMPETENCIES

Product Delivery & Execution · Digital Transformation · Product & Feature Solutioning · Technology Analysis · Requirements Analysis · BRD / FRD / FTD / UTD · User Journey & Process Design · Enterprise Application Management · HR Technology · Mobile App Delivery (iOS & Android) · UAT / SIT · Release Management · Incident & Service Request Management · Stakeholder & Vendor Management · Security & Vulnerability Remediation (VAPT) · ISO 9001 Compliance · SOP & Technical Documentation · User Guides & Stakeholder Documentation · User Training & Enablement · Cost Optimisation · Social Media & Employer Branding · Data Integration · Generative AI & Prompt Engineering · UX Design

TECHNICAL SKILLS

- **AI:** Generative AI, Prompt Engineering, RAG concepts, LLMs, AI-assisted development (Claude Code), multi-model AI (OpenRouter)
- **Enterprise & Cloud:** Microsoft Azure, Azure AD / SSO, AWS, PeopleSoft, SharePoint, SFTP, database integration, Firebase
- **Development (working knowledge):** Java, JavaScript, React, Node.js, SQL, HTML5 / CSS, HTML5 Canvas, Supabase, Python (basic)
- **Tools:** Jira, Google Play Console, Apple App Store Connect, Power BI, Microsoft Excel, Microsoft 365, service management platforms

PROFESSIONAL EXPERIENCE

Seamex – Aditya Birla Group (HR Shared Services Centre)

Navi Mumbai

Assistant Manager – Technology Analyst

Jun 2024 – Present

Technology Analyst Trainee

Jun 2023 – Jun 2024

Product Delivery

- Maintained 100% on-time delivery of planned projects every year since 2023 across enterprise HR technology platforms.
- Managed the end-to-end launch of the HR app in Canada, parts of the USA, Sweden, Thailand, Indonesia and China, and supported closed-user-group availability across 13+ regions.
- Ran daily delivery calls with the app development partner to track status, risks and dependencies, keeping business and technology stakeholders aligned.
- Managed and handled the complete Group Awards App for a group-wide awards programme in FY 2025-26, from solutioning and setup to live event-day operations, on-ground user support and issue resolution on iOS and Android (1,060 downloads: 598 iOS, 462 Android).

Solutioning & User Experience

- Enhanced app authentication by moving to enterprise single sign-on (SSO, Azure AD), with a refreshed login screen and user guides; reported 15% reduction in login issues.
- Enhanced account recovery (PIN reset) and multi-device login and notification flows for a more secure, seamless user experience; solutioned enterprise licensing to improve testing for new users.
- Optimised infrastructure costs by analysing three months of app storage and usage and planning improvements with IT and the development partner.

Requirements & Documentation

- Created BRDs, FRDs, test documents, SOPs and solution analyses; evaluated partner solutions for go-ahead decisions.
- Standardised templates for app change requests, FAQs, support communication and login / geo-fencing guides; reported 35% improvement in internal audit readiness.

Quality, Security & Compliance

- Tested iOS and Android builds and validated releases; reported 98% stable release rate with zero critical production bugs in the measured period.

- Resolved 100% of vulnerabilities identified in VAPT and CISO audits, working with security and technology teams.
 - ISO SPOC for compliance activities; trained ISO 9001:2015 internal auditor.
- Operations & Support**
- Resolved 200+ app tickets with a reported 98% SLA response rate and 100% SLA resolution rate.
 - Analysed incident and service-request patterns to guide L1 support teams; reported 12% improvement in resolution turnaround time.
 - Managed SFTP data flows and master-data mapping, maintaining 100% data consistency across integrated systems.
 - Tracked app analytics on Google Play Console and Apple App Store Connect: 100,000+ downloads and ~54,000 active users.
- Training & Enablement**
- Trained 5,000+ users on the app, including business teams on the geo-fencing attendance feature, and delivered 10+ technical walkthroughs for Business HR and Contact Center teams.
 - Created clear user guides and stakeholder documentation that simplify the user experience; reported 20% improvement in feature adoption.
- Social Media & Employer Branding (skills beyond the day-to-day role)**
- Managed the company LinkedIn page end to end (content strategy, copywriting, engagement and tracking): grew followers from 1,376 to 3,500+ with 1,000+ average impressions per post.

KEY PROJECTS

- **Geo-Tagging Attendance – working prototype (own initiative):** Designed and built a GPS-based attendance web app (sign-in, shift start, live location capture and submission summary) on own time; it is the working prototype on which the live feature is being built into the main HR app.
- **Seamless Dash – working prototype:** Designed and built a mobile-first HTML5 Canvas endless-runner game showing how gamification can drive app adoption, with employee ID login, persistent sessions, top-5 score tracking, power-ups, trivia, haptics, audio and analytics.
- **Word Vibe (prasidhajagtap.github.io/word_vibe):** Live browser word game built from scratch with AI-assisted development, covering product concept, feature design, UI/UX, database integration, security, testing and optimisation.
- **Personal website:** Designed and deployed with Claude Code, with SEO, structured data, accessibility and cross-browser testing.

EARLIER EXPERIENCE

- Associate – Amazon** Jun 2020 – Sep 2021
- Handled high volumes of customer calls and emails in a structured, service-driven process, building issue resolution, clear communication and process discipline.
- Officer – Security – IndiGo Airlines** Jan 2018 – Aug 2019
- Kept the aerodrome secure and supported flight and passenger safety under strict aviation procedures, building operational discipline, attention to detail and calm under pressure.

EDUCATION

- PG Diploma in Advanced Computing (PG-DAC) – CDAC Pune** 2023
- Full-stack development · 73%
- B.E. Electronics & Telecommunication Engineering – St. Vincent Pallotti College of Engineering and Technology, Nagpur** 2017
- CGPA 7.09
