

PRASIDHA JAGTAP

Technology Analyst | Product Delivery & Digital Transformation | Enterprise & HR Tech Platforms | Mobile App Delivery | AI Enablement

Navi Mumbai, Maharashtra, India | prasidhajagtap@yahoo.com | linkedin.com/in/prasidhajagtap | prasidhajagtap.github.io/projectP001

PROFESSIONAL SUMMARY

Technology Analyst with 6+ years of work experience, including 3+ years delivering enterprise HR technology and digital transformation at Seamex, Aditya Birla Group. Manage an enterprise HR mobile app (iOS and Android) that covers most hire-to-retain transactions for employees and managers, from requirement analysis and solutioning through documentation, testing, release and production support. Delivered 25 of 25 planned projects in FY 2025-26, including the app's launch in four countries and a migration from ADFS to Azure AD. Bring together solutioning, stakeholder management, security and compliance, and hands-on AI-assisted product building to connect business needs, technology execution and user experience.

CORE COMPETENCIES

Product Delivery & Execution · Digital Transformation · Product & Feature Solutioning · Technology Analysis · Requirements Analysis · BRD / FRD / FTD / UTD · User Journey & Process Design · Enterprise Application Management · HR Technology · Mobile App Delivery (iOS & Android) · UAT / SIT · Release Management · Incident & Service Request Management · Stakeholder & Vendor Management · Security & Vulnerability Remediation (VAPT) · ISO 9001 Compliance · SOP & Technical Documentation · User Guides & Stakeholder Documentation · User Training & Enablement · Data Integration · Generative AI & Prompt Engineering · UX Design

TECHNICAL SKILLS

- **AI:** Generative AI, Prompt Engineering, RAG concepts, LLMs, AI-assisted development (Claude Code), multi-model AI (OpenRouter)
- **Enterprise & Cloud:** Microsoft Azure, Azure AD / SSO, AWS, PeopleSoft, SharePoint, SFTP, database integration, Firebase
- **Development (working knowledge):** Java, JavaScript, React, Node.js, SQL, HTML5 / CSS, HTML5 Canvas, Supabase, Python (basic)
- **Tools:** Jira, Google Play Console, Apple App Store Connect, Power BI, Microsoft Excel, Microsoft 365, service management platforms

PROFESSIONAL EXPERIENCE

Seamex – Aditya Birla Group (HR Shared Services Centre)

Navi Mumbai

Assistant Manager – Technology Analyst

Jun 2024 – Present

Technology Analyst Trainee

Jun 2023 – Jun 2024

Product Delivery

- Delivered 25 of 25 planned projects on time in FY 2025-26 (100% completion) across enterprise HR technology platforms.
- Managed the end-to-end launch of the HR app in Canada, Thailand, Indonesia and China, and supported closed-user-group availability across 13+ regions.
- Ran daily delivery calls with the app development partner to track status, risks and dependencies, keeping business and technology stakeholders aligned.
- Managed solutioning, maintenance and on-ground support of the Group Awards App for a group-wide awards programme in FY 2025-26 (1,060 downloads: 598 iOS, 462 Android).

Solutioning & User Experience

- Managed the migration of app sign-in from ADFS to Azure AD, including the new login screen design and user guides; reported 15% reduction in login-related friction.
- Built a complete Geo-Attendance (geo-fencing) prototype on own initiative and time; it became the blueprint for the live app feature delivered with the development partner, now used by 5,000+ employees.
- Solutioned the Forgot M-PIN journey, a primary-device concept for multi-device login and notifications, and enterprise licensing to improve testing for new users.
- Analysed three months of app storage and infrastructure usage to plan cost optimisation with Seamex IT and the development partner.

Requirements & Documentation

- Created BRDs, FRDs, test documents, SOPs and solution analyses; evaluated partner solutions for go-ahead decisions.

- Standardised templates for app change requests, FAQs, support communication and login / geo-fencing guides; reported 35% improvement in internal audit readiness.
- Quality, Security & Compliance**
- Tested iOS and Android builds and validated releases; reported 98% stable release rate with zero critical production bugs in the measured period.
 - Resolved 100% of vulnerabilities identified in VAPT and CISO audits, working with security and technology teams.
 - ISO SPOC for compliance activities; trained ISO 9001:2015 internal auditor.
- Operations & Support**
- Resolved 200+ app tickets with a reported 98% SLA response rate and 100% SLA resolution rate.
 - Analysed incident and service-request patterns to guide L1 support teams; reported 12% improvement in resolution turnaround time.
 - Managed SFTP data flows and master-data mapping, maintaining 100% data consistency across integrated systems.
 - Tracked app analytics on Google Play Console and Apple App Store Connect (11,000+ downloads, Nov 2023 – Mar 2024).
- Enablement & Communication**
- Delivered 7 training sessions to 495 employees (127 feedback responses, 4.54/5 average Learning Index) and 10+ technical walkthroughs for Business HR and Contact Center teams.
 - Created clear user guides and stakeholder documentation that simplify the user experience; reported 20% improvement in feature adoption.
 - Managed the company LinkedIn page: followers grew from 1,376 to 2,505 and average views from 5,430 to 8,068, with 58,980 impressions by March 2026.

KEY PROJECTS

- **Seamless Dash – working prototype:** Designed and built a mobile-first HTML5 Canvas endless-runner game showing how gamification can drive app adoption, with employee ID login, persistent sessions, top-5 score tracking, power-ups, trivia, haptics, audio and analytics.
- **Word Vibe (prasidhajagtap.github.io/word_vibe):** Live browser word game built from scratch with AI-assisted development, covering product concept, feature design, UI/UX, database integration, security, testing and optimisation.
- **Personal website:** Designed and deployed with Claude Code, with SEO, structured data, accessibility and cross-browser testing.

EARLIER EXPERIENCE

- Associate – Amazon** Jun 2020 – Sep 2021
- Resolved customer queries by phone and email in a high-volume, process-driven environment.
- Officer – Security – IndiGo Airlines** Jan 2018 – Aug 2019
- Maintained aerodrome security and supported flight and passenger safety under strict operating procedures.

EDUCATION

- PG Diploma in Advanced Computing (PG-DAC) – CDAC Pune** 2023
- Full-stack development · 73%
- B.E. Electronics & Telecommunication Engineering – St. Vincent Pallotti College of Engineering and Technology, Nagpur** 2017
- CGPA 7.09
